SHAREHOLDERS & CLIENTS,

The net income for the first quarter 2019 increased an impressive 123% over the prior year. The increase in earnings year-over-year is due to the transformative growth in loans and core deposits that took place in 2018.

Total loans increased \$258 million or 26% from a year ago, and total deposits increased \$253 million or 15% from the same time period. This is largely centered in new business from new clients, as the Bank continues to successfully capture prime opportunities in Southern California's vibrant business banking market.

Reflecting this balance sheet growth, our revenues were up over 26% year over year. This growth is attributed primarily to an increase in loan interest income, as the Bank continues to focus on lending to local businesses who are growing this area's economy.

As always, the Bank remains well capitalized and strongly reserved, despite our low delinquencies and minuscule non-performing loans for the quarter.

We continue to seek out profitable middle market, relationship business banking activities, and are not reliant on wholesale funding to generate our excellent returns. We believe that our results are reflective of our hallmark mission: to do what is right for our clients, with a staff that is dedicated to our mutual success.

Understandably, we are very proud of our results, of our talented staff, and our exceptional clients.

-Leon Blankstein
President, Chief Executive Officer, Director

American Business Bank has seven offices in strategic locations including: Los Angeles, Irvine, Anaheim, Torrance, Woodland Hills, Corona and Ontario.
