See back of form for additional questions. Part II Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► On June 22, 2021, American Business Bank approved a 10% stock dividend per common share. The stock dividend is payable on July 22, 2021 to shareholders on record as of June 23, 2021. Cash in lieu was paid on fractional shares based on the stock's market value on the close of business on June 23, 2021. Please contact your tax advisor if you have questions about the tax implications of cash paid for fractional shares. Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per 15 share or as a percentage of old basis ► Each shareholder received a 10% increase in the number of shares held on June 23, 2021. On the record date of June 23, 2021, there were 7,998,936 shares outstanding. As a result of the 10% stock dividend, an additional 799,806 shares were issued on July 22, 2021 with the remaining 87.6 shares paid in cash. Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► On June 23, 2021, the market value of American Business Bank's common stock was \$41.70 prior to the stock divdend paid. The change in basis to the individual shareholder as a result of this stock dividend would be calculated by taking the adjusted basis of the old stock (that is of the stock on which the dividend was distributed) and allocating it between the old and new stock on the date of distribution. This organizational action would result in a decrease per share basis and an increase in the number of shares held by each taxpayer.
